LIVING THE MISSION WORKING FOR HOSPICE

Then there's this other woman who used to teach piano. At one time in her life she could play the piano as well as a concert pianist. Now she can't even remember how to walk. She says things like "Gee whiskers" and always asks what her "boys" will think of things.

Another woman has a rare cancer. She woke up one morning and could no longer walk. Another had an awful infection in her leg and was losing her foot. Another had an amazingly sharp mind but a body diseased by Parkinson's.

It can be hard helping those who are dying. Sometimes I think it's hard because our minds can't comprehend the concept of death.

I've come to realize that each of us has a dying heart no matter what our age. So, each morning I beg the Lord to take my soiled and dying heart and do with it what He can to make a difference in the lives of others.

That's how I live the mission.

Deidra Olsen

I assist a woman on Thursdays and Fridays. She can no longer speak. She's forgotten how. She has dementia. I put lotion on her hands and read to her. She almost always falls asleep.

I work with people who are dying. Most have six months or less to live. Some die peacefully. Some linger on and on.

I help another woman who wanders the halls of her small facility for most of the day. I hold her hand and walk with her for an hour. I smile at the people where she lives when we pass.

I help another man who says that every day is a gift and every moment a miracle. I soak his feet and lotion them. He says that no one has ever done that for him before. He loves songbirds and recites poems about June and trees with praying hands.

Another woman I assist is 99 years old. She has a hard time believing she is almost 100. She can't hear very well and every time I bend down to say something in her ear she thinks I want a hug. I get so many hugs when I am with her.

"I have been able to get so much support, encouragement and comfort from so many people." Three generations of the Neve family are here at camp meeting.

Singing at the Sink

Four of us were up at 5:30 am brushing our teeth and doing our hair in Bathroom 2 when Lesa Budd, washcloth in hand, bravely started singing, "In the morning when I rise ... give me Jesus." It didn't take long for the three of us to join her - a ready-made quartet. It turns out the lady at the far sink had just been thinking about how great it would be if we all sang. I wonder if our guardian angels were in the mood to praise and nudged Lesa to begin. We sang "How Great Thou Art" before parting. I don't know if I'll ever meet those ladies there again, but I'll never forget our experience of singing at the sink.

Question of the Day

HOW DO YOU HANDLE TITHING IN A FINANCIALLY TOUGH ECONOMY?

Deb Pomplum

What I gave used to depend on my financial situation. I realize this was more like throwing table scraps to God than tithing. I'm not where I'd like to be yet, but I do have an established tithe every week which comes before the little extras in life.

Paul Van Laarhoven

By faith. I tithe with a prayerful, joyful heart and the good Lord blesses me.

Carl Biebenitz

Tithe comes first. Lifestyle will settle into the income level.

Food Drive at Camp Meeting

Over 800 food and personal items have been brought in to the ACS cabin so far this week.

"Thank you for the joy to give back to others," said Lori and Lon Holm as they dropped off their donations. "God richly blesses us and we want to pay it forward."

Donations are being accepted at the ACS cabin until Friday noon.

Juanita Edge

Becky Ziesmer

I don't think in terms of economy. I partner with God for all my needs. Why would I want to break that partnership in the tough times?

Burnadette Doran

Even when we only had \$8000/year to cover our six-person family, we still gave two tithes.

Carol Wheeler

We tithe on what we get no matter what. God blesses.

Pat Norton

Be faithful to God. He is faithful.

Lake-to-Lake Run Win

Josh Guerrero won the annual Lake-to-Lake Run this year with a time of 4:32. David Avave and Richie Silie came in second and third. A first-time winner, Josh has trained the past five weeks for a half marathon. David runs cross-country at school. Richie runs mornings. A record 24 participants ran from Mud Lake to Sandow Lake at noon Wednesday. The youngest was five.
