

W3 PILOT CONFERENCE | In-Person/Facebook & YouTube Livestream

Theme: Revitalizing Worship, Revitalizing Mission

Venue: Madison Community Seventh-day Adventist Church

1926 Elka Lane, Madison WI 53704

Dates: April 23-24, 2021

Our Aim:

To help churches and local leaders create intentional and inspirational worship services.

Event Description:

Inspiring-creative worship isn't just for large churches. It's also not just for churches who mostly or only do contemporary worship. It's not limited to churches with seasoned musicians, cutting-edge technology, and state-of-the-art worship facility. While it can involve those things, stagnant worship can be revitalized to grow and reach more people with outreach-oriented intentional creativity—all for the glory of Christ.

Come for our in-person sessions or join us online to learn proven creative practices/methods and/or explore new ideas with pastors/worship leaders from the USA & Canada and take your local worship experience to the next level.
